Linear Guide Rails Drilling Machine

LMG Series

Features

- A.Innovative
Method->Drilling->Through-> Chamfering->Reamering in one time
- B.Easy operation; no extra programming.
- C.Increasing efficiency by 3-folds than single/double column types.
- D.Saves energy if installed with appropriate spindle power.
- E.Saves space up to 80% compared with double columne types.
- F.Meets general demands for guide rails manufacturers.
